Overview

ICF Consulting is a leading management, technology, and policy consulting firm. Drawing upon extensive industry knowledge, distinguished professionals, and innovative analytics, the firm develops solutions to complex energy, environment, emergency management, community development, and transportation issues. ICF Consulting's approach to these issues is strengthened by its expertise in information technology, organizational improvement, program management, and communications. Since 1969, ICF Consulting has been serving major corporations, government at all levels, and multinational institutions. More than 1,000 employees serve these clients from key business centers in North America, Europe, and Asia.

Capabilities

Our Objective: Help companies and other organizations integrate greenhouse gas (GHG) emissions management into their business strategies.

ICF Consulting provides the right skills, tools and processes to help companies evaluate the technical challenges of addressing the risks and opportunities from climate change. Our broad experience and capabilities support manufacturing, energy, chemical, pharmaceutical, transportation, wood product, and technology firms in all aspects of climate change analysis, strategic planning, and value optimization. ICF Consulting is unparalleled in its combination of technical GHG expertise, leadership, and creativity. With more than 200 climate change and air emissions experts, we offer market credibility and technical integrity with more than a decade of experience in advising leading-edge companies and state, national, and international agencies. We develop and apply innovative methodologies, models, and software tools to address our clients' emissions needs.

Achievements

Inventories and Protocols

- IPCC Methodologies (1990-present)
- Official U.S. GHG Inventory Submission to UNFCCC (1990-present)
- California GHG Emissions Inventory (2001-2002)
- Corporate GHG protocols for oil/gas, forest products, mining and metallurgical clients
- Six WRI/WBCSD Corporate GHG protocols
- 21 Web-based GHG industry protocols for International Finance Corporation
- Protocol development to support California Climate Action Registry

Valuation, Monitoring and Verification

- U.S. and global GHG marginal abatement cost analyses
- Environment Canada's Entity Level Reporting analysis and Issues Tables
- GHG Monitoring and Verification Plan for World Bank \$150M Prototype Carbon Fund
- bp GHG auditor
