

## **Policy Adoption Memo**

The Registry is developing a Policy Manual to address various operational issues. Policy revisions will be presented for adoption as the need arises.

The following 7 policies are for the Board's consideration and adoption/change at the Board meeting. The first policy, on Confidentiality, was proposed, discussed and adopted in principle at the June Board meeting. The Board discussed the remaining 6 topics and asked the staff to develop policy statements around those issues. The policies attempt to reflect Board discussion and are designed to be simple, clear and flexible.

- Confidentiality
- Protocol Revision Process
- Reporting Data Collected Prior to Registry Participation
- Contracting
- Registry Participants/Certified Participants
- Non-Certifiable Results
- Dispute Resolution
